

**ROSS VALLEY SCHOOL DISTRICT**  
**REQUEST FOR QUALIFICATIONS**  
**CONSULTANT GEOTECHNICAL SERVICES**

**RFP # 2010-5**

**RESPONSE TO QUESTIONS # 1**

**July 6, 2011**

The following information is being issued as supplemental information to the RFP referenced above. All other conditions remain the same.

Q. Regarding the specific information for the White Hill Middle School campus, please provide:

- a. Building footprint for 1) classroom buildings and 2) art classrooms
- b. Copies of 1966 and 1977 investigation reports by HLA, if available

R: a. As provided in the RFQ, the new gymnasium, which is the southernmost building is approx 11,000 sq.feet in plan. The building just to the east is actually an existing gymnasium approximately 6500 sq. feet that is being modernized only. Further to the east and just south of the parking lot is the performing arts classrooms building with a footprint of approx. 9200 sq feet.

The new classroom building identified as two story are: The southern classroom building has a footprint of approx. 7000 sq. feet. North of it is a mixed one and two story art building that is approx. 6000 sq. feet in plan. This building connects to the second two story classroom building that is approximately 5500 sq feet in plan.

b. The earlier reports referenced are not currently available. Should they become available, they will be posted on the District website.
